

From Sally Scott:

Thank you for the invitation to the meeting but I am not able to attend on the 25th.May.

The situation remains the same in that a couple of projects considered before covid fell by the wayside afterwards. Although there are two other former members of the group still around, one in the village and one across the water in Washingborough we are not active as a group and indeed are not likely to be again. I think that this is a common experience where a group come together for specific projects and then cease to be active. I know that this has happened in other nearby villages.

I am talking to them however about what to do with materials we collected for our project and how the money made by our two publications can be used that will fulfil the condition of the initial grant that it should be used for local history type of purposes.
